PROFESSIONAL SUMMARY

Full-Stack Engineer with **1.7+ years of experience** building scalable **SaaS platforms** using **TypeScript, Node.js, and Next.js**. Experienced in **event-driven architectures** with **Kafka and RabbitMQ**, developing performant **APIs**, **real-time dashboards**, and modern **frontend systems**. **Open-source contributor to Cal.com**.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Go, Python
Frontend: React, Next.js, Tailwind CSS, Redux, React Query
Backend: Node.js, Express.js, Nest.js, TRPC, GraphQL, Kafka, RabbitMQ
Databases: PostgreSQL, MongoDB, Redis
DevOps: Docker, Kubernetes, AWS, CI/CD
Testing & Tools: Vitest, Jest, Cypress, Git, GitHub

WORK EXPERIENCE

Software Developer — **Aug 2024 – Present**
Practiskills Pvt Ltd. — Remote

- Architected an **event-driven microservices architecture** using **Nest.js** and **RabbitMQ**, improving **system responsiveness and fault tolerance by 35%**.
- Implemented **type-safe GraphQL and REST APIs**, reducing **frontend integration time by 30%** and enabling **cross-service communication**.
- Created **responsive landing pages**, **internal dashboards**, and **reusable UI components** using **React** and **Tailwind CSS** to support **product features**.
- Integrated **Stripe billing** along with **OAuth2 / JWT authentication**, increasing **user activation by 15%** through **secure onboarding flows**.

OPENSOURCE & PROJECTS

Mergewise | Website | GitHub | Next.js, TypeScript, React.js, Node.js, PostgreSQL, RabbitMQ

- Built an **AI GitHub agent** that automates **pull request reviews for code quality and bugs**, reducing **manual review time by 40%**.
- Designed a backend workflow using **RabbitMQ** to process **repository events asynchronously**, enabling **simultaneous PR reviews across multiple repositories**.
- Developed a **real-time dashboard** to monitor **repository health** and track **AI feedback across branches**.

Wavely | Website | GitHub | Next.js, TypeScript, React.js, Node.js, PostgreSQL

- Created an **AI-powered platform** that generates **Next.js websites from prompts** with **recursive re-prompting** for **iterative design updates**.
- Implemented a **live preview environment** with a **side-by-side code editor**, allowing **instant synchronization between AI-generated changes and manual edits**.
- Integrated **LLM workflows** to ensure generated components remain **modular**, **responsive**, and aligned with **modern design standards**.

Opensource— Cal.com (PR #22715)

- Extended **API v2 endpoints** to support **hidden events**, enabling **enterprise scheduling workflows**.
- Delivered a **production-ready contribution** merged into the **main repository** with **End-to-End (E2E) test coverage**.

EDUCATION

BTech IT | GPA: 8.54 — **2024**
Parul University — Vadodara, Gujarat
